Description

Extension **Order Markers** intended to mark orders with graphic icons (or markers) and add text notes.

Now all important orders will be labeled with graphic colored markers. They are immediately catch your eye and greatly simplify the search for the required information. Text notes remind you or the staff for additional information for order.

The module is able to:

- save your time and simplify work with orders;
- create easy collaboration among multiple store managers;
- clearly highlight important orders;
- provide additional information for orders using text notes.

You can mark any order with marker right on the page with a list of all orders. You can delete, edit existing markers and add new markers to system. There are several integrated marker icons in extension. Also you can use 2 free pack of icons (total of 80 icons) that come with the extension in separate folders.

Install

Go to **System - Magento Connect - Magento Connect Manager - Direct Package file upload**

The screenshot shows the Magento Connect Manager interface. The 'Direct package file upload' section is highlighted with an orange border. It contains the following steps:

- 1 Download or build package file.
- 2 Upload package file: No file selected.

Install

If you have Magento 1.4 or problems with **Direct Package file upload** then copy files from archive with extension to your server.

The screenshot shows a file manager interface with two panes. The left pane shows a directory listing with the following columns: Name, Ext, Size, and Date. The right pane shows a directory listing with the following columns: Name, Ext, Size, and Date. An orange arrow points from the 'package.xml' file in the left pane to the 'app' folder in the right pane.

Using extension

Using markers for orders

Go to **Sales - Orders**

The screenshot shows the Magento Admin Panel interface for the 'Orders' section. At the top, there is a navigation bar with 'Sales' highlighted. Below it, a table lists three orders. The first order (100000003) has a yellow marker and a tooltip that says 'This is cool order!'. The second order (100000004) has a red minus sign marker. The third order (100000001) has a green plus sign marker. The table columns include Marker, Order #, Purchased On, Bill to Name, Ship to Name, G.T. (Base), G.T. (Purchased), Status, and Action.

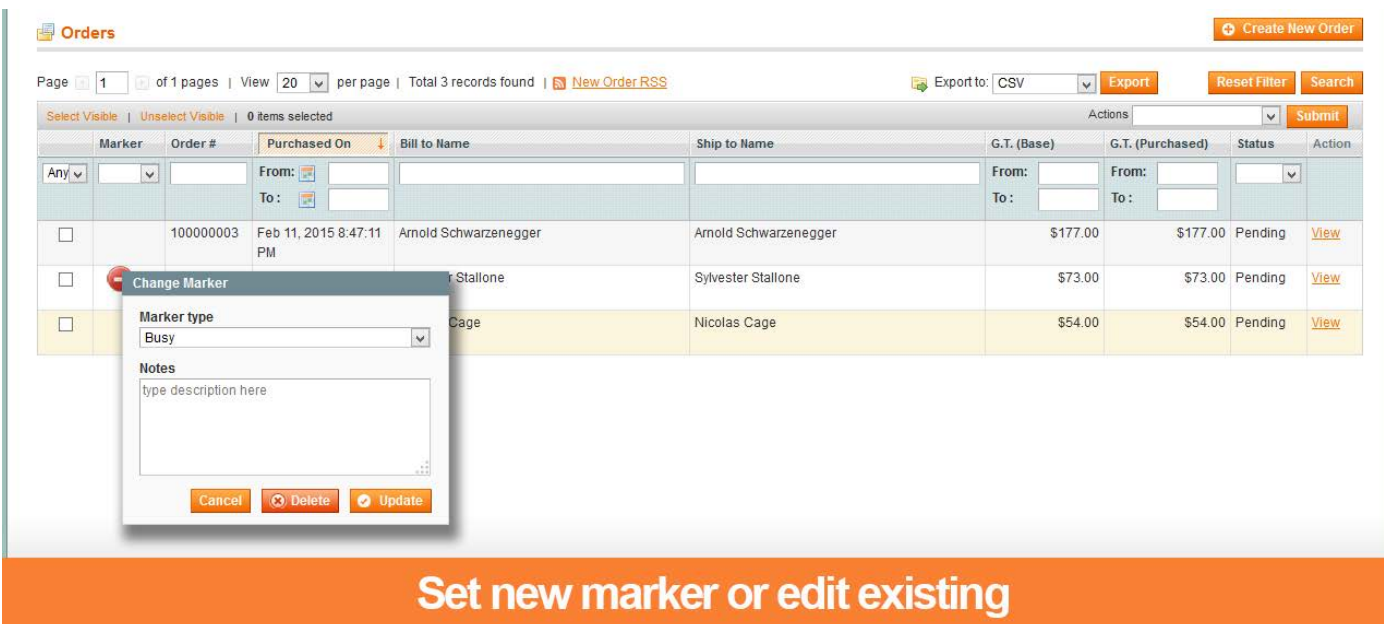

Marker	Order #	Purchased On	Bill to Name	Ship to Name	G.T. (Base)	G.T. (Purchased)	Status	Action
Any		From: <input type="text"/> To: <input type="text"/>			From: <input type="text"/> To: <input type="text"/>	From: <input type="text"/> To: <input type="text"/>		
	100000003	Feb 11, 2015 8:47:11 PM	Arnold Schwarzenegger	Arnold Schwarzenegger	\$177.00	\$177.00	Pending	View
		Feb 11, 2015 8:46:03 PM	Sylvester Stallone	Sylvester Stallone	\$73.00	\$73.00	Pending	View

Orders with markers

Here you can:

- Set new marker and notes for any order
- Delete marker for order
- Change marker and notes for order

To set a new marker just click on any cell to the left of the order in the **Marker** column. To delete or edit any existing marker, click on it.

The screenshot shows the same 'Orders' grid as before, but with a 'Change Marker' dialog box open over the second order. The dialog box has a 'Marker type' dropdown menu set to 'Busy' and a text area for 'Notes' with the placeholder text 'type description here'. At the bottom of the dialog, there are three buttons: 'Cancel', 'Delete', and 'Update'.

Set new marker or edit existing

Add new types of markers to system

Go to **Sales - Order Markers**

Here you can see all markers in your system.

ID #	Image	Marker Name	Action
2		Busy	View
3		Check	View
4		Cool	View
5		Edit	View
6		Lock	View
7		Plus	View
9		Star	View

You can:

- Add new markers (**Sales - Order Markers - Add New Marker**)
- Delete or edit any marker
- Use filters to find required markers

To add new marker click on **Create New Marker** button on the top right corner of page. To edit any marker click on line with it in the table.
